

MAXLED Standard Wallpack Wire Guards

MLSWPWG Shown

MLLWPWG Shown

- MLSWPWG: Fits all MLSWP standard wallpacks, and SKFHSWP
- MLLWPWG: Fits all MLLWP standard wallpacks, and SKFHLWP

DESCRIPTION

The welded continuous wire construction of the wire guard accessory for standard wall packs ensures that the high-quality shatterproof glass remains protected and intact. The 2.8 mm wire, offered in standard black, is polyester powder coated and is easily attached to the wall pack's housing with the existing lens screws located on each side of the fixture.

BENEFITS

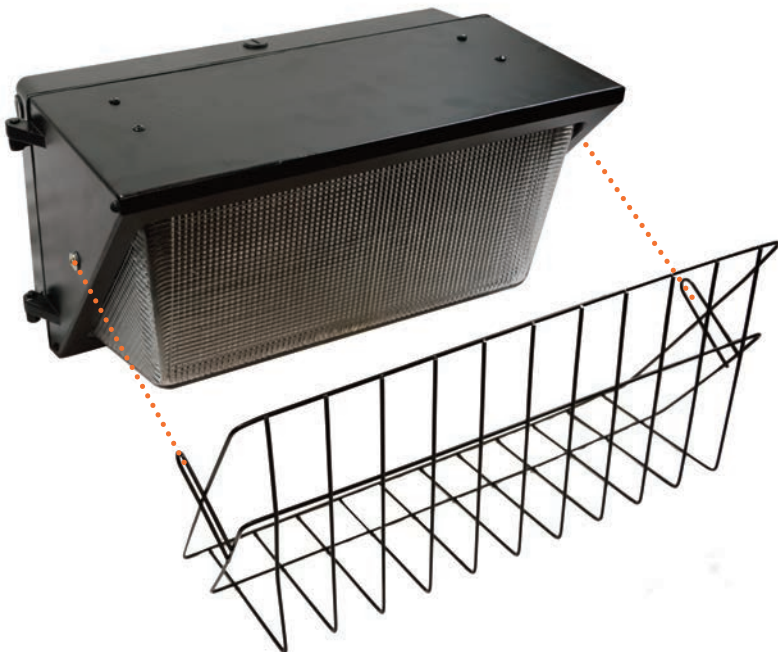

- Not UL or ETL
- For use with all standard large and small wallpacks
- Does not fit full cut off models
- Welded construction with continuous 2.8mm wire
- Polyester powder coated with black finish

ORDERING

To order wallpack wire guard use:

MLSWPWG = Fits all MLSWP standard wallpacks, and SKFHSWP

MLLWPWG = Fits all MLLWP standard wallpacks, and SKFHLWP

INSTALLATION

Connect the wire guard to the wallpack using the existing screws and washers located on each side of the fixture.
