Award Winning Light
Fixtures for Builders

.2008

Lighting for Tomorrow's award-winning energy-efficient fixture families.

Increase Sales

Sell the benefits of homes with ENERGY STAR® qualified fixtures - they benefit the environment and save money.

The average homeowner can save \$40 to \$200 per year, adding to \$3,600 over a 30-year mortgage.

Demonstrate Leadership

Stand out as an efficient lighting expert.

Protect the Environment

Earn a green home designation or add value to an ENERGY STAR® Home.

Are Affordable, High-Quality Lighting Solutions

Advances in lamps, electronic ballasts, and fixtures have resulted in superior light quality, good color and great light output.

The new flexibility in changing lamp wattages allows customers to vary the light output of their fixtures.

All the fixtures featured in this brochure and readily available and come in quantities that can meet the needs of a production builder.

For more information please refer to the Lighting for Tomorrow Yearbook at www.lightingfortomorrow.com
