

## Questions & Answers from MaxLite's June 30<sup>th</sup>, 2016 Webinar: "Utility Rebate Services"

---

**Q:** Does MaxLite have a database of the various incentive programs around the country?

**A:** Yes we do! <http://www.maxlite.com/utility-rebate-programs>

---

**Q:** Do you have a list of specific Midstream programs across the US?

**A:** Yes we do, please see slide 7 of the presentation.

---

**Q:** What is the contact info of the rebate lead?

**A:** You can email our entire team at [utility@maxlite.com](mailto:utility@maxlite.com)

---

**Q:** Who is the one network control on the list now?

**A:** Take a look at the new DLC Spec for Networked Controls  
<https://www.designlights.org/content/CALC/SpecificationAndQPL>

---

**Q:** On LED lamps - must they be dimmable to be Energy Star?

**A:** No, the EStar 2.0 Spec does not require dimmability.

---

**Q:** If there are rebate programs that aren't currently listed, but we think you'd like to know about, where should we send that info?

**A:** please email us at [utility@maxlite.com](mailto:utility@maxlite.com)!! Thank you very much for your help.

---

**Q:** Do we currently offer a LED A-lamp that is Energy Star and can replace a 60 watt incandescent around 800 lumens?

**A:** Yes, we have a 9A19 Omni Directional.

---

**Q:** Does MaxLite have a 4ft direct fit led with Omni Directional (360 degree) for use in indirect/direct fixtures?

**A:** You're asking for a T8 LED 360 degree beam angle? I believe the largest beam angle we currently have is 330 degrees.
