MaxLite introduces canless commercial downlights with field-selectable wattages and CCTs

WEST CALDWELL, N.J. (February 5, 2021) – Building on the contractor-friendly features of its canless LED commercial downlights, MaxLite expands the popular RCF Series with wattage and CCT selectable models that enable installers to customize light outputs and color temperatures in the field.

The RCF is a labor-saving, all-in-one solution for adding recessed downlighting to hospitality, retail, office, and other commercial lighting applications. The downlight features a built-in driver and integral whip that can be connected directly to a junction box, eliminating the need for a traditional recessed housing. The ENERGY STAR certified series is available in four sizes (4", 6", 8", 9.5" sizes) to cover a full range of application needs. Each model provides a choice of three wattages and CCTs, helping lighting distributors meet varied customer preferences with fewer SKUs. Outputs range from 900 to 3,400 lumens across the series.

The downlights may be paired with a field-installable emergency battery backup kit to enhance safety during loss of power. A safety cable is provided standard with the fixture, complemented by optional frames with an integrated junction box for use in new construction applications. View the product page for complete product specifications at: <https://www.maxlite.com/products/universal-downlights-wattage-color-selectable/>

RCF Series Highlights

- Color selectable (3000K/3500K/4000K)
- Wattage selectable (6", 8", 9.5") - 10W-40W
- Fixed wattage (4") - 12W
- Outputs from 900 to 3,400 lumens
- 120V-347V with 0-10V dimming
- IC Rated (4", 6", 8")

MaxLite offers a full range of wattage and CCT selectable LED indoor products that save energy, labor and shelf space. The portfolio includes flat panels, flush mounts and downlights. Learn more at MaxLite.com.

About MaxLite (www.maxlite.com)

MaxLite has been committed to providing energy-efficient lighting products since 1993. One of the first movers into LED technology in the industry, MaxLite offers an extensive line of quality, certified indoor and outdoor LED lamps and luminaires. A five-time recipient of the ENERGY STAR Partner of the Year Award for its industry leadership, MaxLite continues to be at the forefront of energy-efficient technologies through the innovative research and development capabilities of its teams and facilities in New Jersey, Indiana, California, and globally. MaxLite is a nationally certified Minority Business Enterprise (MBE) by the National Minority Supplier Diversity Council.
