

LED Indirect Troffer EASY ON THE EYES

It's a phrase that applies to the MaxLite Indirect Troffer in more ways than one. This architecturally designed beauty uses its voluminous, high efficiency reflectors to fill the room with visually comfortable, low-glare, LED illumination.

The Indirect Troffer is the ideal energy-efficient solution for commercial, education, hospitality, health care, and other spaces requiring advanced aesthetics and performance.

Features:

- Available in 2x2 and 2x4
- Smooth dimming down to 1%
- +125 lm/W performance
- Emergency Battery Backup and Integrated Controls
