

Warm & Inviting

LED Warm-on-Dim Downlight Retrofits

MaxLite's new LED retrofits emulate the warmth of incandescent light by decreasing in color temperature as they dim. Color smoothly shifts from 3000K to 2000K, creating the perfect ambience for dining, entertaining or relaxing.

Features:

- Adjustable lens rotates 350° / tilts up to 30°
- Fits most 5" – 6" recessed housings
- Suitable for damp locations
